Re: BERC CPR# 0804B013; N. Ebrahim; Proposed Redevelopment of 3707, 3715, and 3739 Dollarton Highway, North Vancouver, BC

EXTENSION LETTER

Reference is made to the above subject application submitted to the Burrard Environmental Review Committee (BERC) for a coordinated environmental review.

Reference is also made to the email submitted to the Burrard Environmental Review Committee by Bruce Nidle of Pottinger Gaherty on June 10, 2009, requesting an extension to the BERC letter dated June 25, 2008 for the above subject works located at 3739 Dollarton Highway, North Vancouver, BC.

The BERC has confirmed that they are not aware of any legislative or policy changes within the mandates of the BERC member agencies since the date of the previous recommendations which would require the imposition of additional or different recommendations for these works. On this basis, the BERC is prepared to grant the requested extension to accommodate the the planned completion date for the subject project.

Please note that all conditions listed in the previous BERC letter of June 25, 2008 still apply and hereby declared valid until June 30, 2010. If the subject works have not been completed by that time, a new application for review will be required. This will ensure that the proposed works will conform to current environmental management policy, guidelines and legislation.

Should you have any questions or require further information, please do not hesitate to contact me at (604) 775 5756.

Yours sincerely,

Burrard Environmental Review Committee
