Re: Review of Heritage Permit Report *Archaeological Impact Assessment of a Residential Development at 3707, 3715 and 3739 Dollarton Highway, North Vancouver, B.C.*

The Archaeology Branch (AB) has reviewed the above report dated June 13, 2008 prepared by Arcas Consulting Archeologists under Heritage Inspection Permit 2008-0100.

AB concurs with the assessment findings and recommendations that no further archaeological studies are required for redevelopment of the captioned properties to proceed as outlined. If, however, future development includes activities in the intertidal zone, additional studies and permits will be required, due to the presence of archaeological site **DhRr-0008** which is protected by the *Heritage Conservation Act*.

In the unlikely event that archaeological remains are encountered during the residential redevelopment, please suspend all operations and contact me immediately (250 953-3307). If you have any questions concerning these comments, please contact me at your convenience.

Sincerely,

Jane Warner
Permitting and Assessment Section
